

DENET IGLESIAS BARO

Flat 43 Boyce House
Aldington Road
London
SW16 1UA

PERSONAL PROFILE

A motivated software engineer with over ten years' experience within technology consulting, banking systems, TV, radio, and IT security. Passionate about technology and regularly attend London tech sprint sessions. Able to quickly and effectively adapt to different technologies outside of current experience. Currently looking to resume professional career after moving to the UK and taking maternity leave. During this period has kept professional skills up to date through home studying and attending networking events.

KEY SKILLS

- Broad development knowledge, including JavaScript, HTML, CSS and JQuery.
- Good understanding of NodeJS, ReactJS, Redux and GraphQL.
- Industry aware and up to speed technically with current software development tools (Github, VSCode, Chrome Developer Tools, Postman, CodeWars).
- Excellent analytical and problem-solving skills.
- Effective team member and self-starter.
- Bi-lingual in English and Spanish.

WORK EXPERIENCE

Maternity Leave **August 2017 – present**

Whilst on maternity leave I have been:

- Attending London technology sprint sessions
 - Hackathon weekly on Saturdays
 - Meet ups (LNUG, React girls, Node girls)
- Volunteering at the local South London Refugee Association.

Software Developer **Everis Centers, Alicante, Spain** **Sept 2016 – July 2017**

Everis are a Global Consulting firm. Developed high quality front-end code using AngularJS framework for an estate agent office application, Solvia Stores.

Worked with Java/J2EE to include a banking system for Bank Sabadell to enable loan and mortgage applications. Developed SOAP services, JSF views and managed the databases.

JavaScript, AngularJS, Java/J2EE, Spring Framework, Spring Web Flow, JSF, SQL, CSS, Bootstrap, Web Services (REST/SOAP), SVN, GIT.

Web Developer **Freelance, Madrid, Spain** **March 2016 – Sept 2016**

Developed websites for an independent radio station, "Radio Encuentro". Analyzed, designed, deployed and gave post-production support.

Wordpress, Joomla, JavaScript, PHP

Software Engineer Sprintfinal S.A., Madrid, Spain Oct 2011 – March 2016

Sprintfinal is an advertising agency. Worked in a team to develop internal systems for Bank Santander. Performed detailed analysis of business requirements and developed comprehensive plans defining and scoping project requirements.

Created specific software and devised testing scenarios to ensure optimum levels of efficiency to develop internal Bank Santander systems.

PHP, JavaScript, JQuery, Ajax, CSS, MySQL, Wordpress, Zend, Bootstrap.

IT Security Leader ICRT, Havana, Cuba Aug 2009 – Sept 2011

Led IT Security department for a Cuban TV Station, managing a team of four.

Developed applications for the best administrative performance of the TV Station. Wrote documentation for the applications and procedures to be followed in case of malware attacks.

C#, Joomla.

Software Developer Segurmatica, Havana, Cuba Sept 2007 – July 2009

Cuban computer security consulting firm. Researched and developed tools for automatic processing and analysis of malwares. Part of the team responsible for creating and releasing the antivirus updates.
